Exploratory Testing Notes

ID	Area	WebLink	Observation	Expected Usability	Actual Behavior	Result	Screenshot	Comment
ETN_001	Product listing — Filters	https://www.sinsay.com/ua/uk/?query=%D0%BA%D1%83%D1%80%D1%82%D0%BA%D0%B0-%D0%B6%D1%96%D0%BD%D0%BE%D1%87%D0%B0	Two filter options with the same label “Тип” are displayed.	Filter labels should clearly distinguish different product attributes.	Two filters are displayed with the same label but contain different options	Potential usability issue — not a confirmed bug.		
ETN_002	Search results relevance		Search results for блуз included products that were not blouses, including trousers, a checked dress and children's T-shirts.	Search results should be relevant to the entered search query.	Products from other categories appeared among the search results.	Potential search relevance issue — not a confirmed bug.		
ETN_003	Search		Recommended products remain visible when the search query returns no results.	The no-results message should be clearly distinguishable from recommended products.	The message Відсутність результатів appeared, while recommended products were displayed below.	UX observation — check whether users can distinguish recommendations from search results.		
ETN_004	Category navigation / Responsive layout		Category navigation was displayed differently depending on the available screen layout.	Navigation should remain clear and accessible across different screen sizes.	In one layout, categories appeared as circular image icons; in another, they appeared as a vertical text list on the left.	Responsive layout observation — not a confirmed bug.		
ETN_005	Product details page layout at reduced viewport width	https://www.sinsay.com/ua/uk/dzhynsova-kurtka-z-elastychnymy-vstavkamy-z-bokiv-313js-50j?algolia_query_id=9fb917da1c6e5f06a7cad4181ad87f45	The product details page layout appears distorted when viewed at a reduced browser window width.	The product details page should adapt to the available viewport width. Product images, text, navigation elements, and product information should remain properly aligned and readable.	When the browser window was displayed at approximately half-screen width, the product image appeared compressed into a narrow column. Text and other interface elements were misaligned and overlapped, while a large empty area remained on the page. The issue was not observed when the browser window was expanded to full width.	Responsive layout issue — reproducible at reduced viewport width.		Needs further investigation

ETN_006	Grammar Exercises — Input Fields	https://www.perfect-english-grammar.com/second-conditional-exercise-1.html	Verb prompts should be displayed consistently outside the input fields so that students can clearly identify the words they need to transform.	Verb prompts should be displayed consistently outside the input fields so that students can clearly identify the words they need to transform.	In the second and last exercise items, the verb prompts appear inside the input fields in grey text. In other items, the verbs are correctly displayed in parentheses outside the input fields.	Potential usability issue — inconsistent presentation of exercise instructions.	
ETN_007	Breadcrumb navigation is not displayed	https://www.sinsay.com/ua/uk/dvobortne-palto-klasychnoho-fasonu-160ku-88m	Breadcrumb navigation is not displayed on the product details page.	Users should be able to see their current location within the website hierarchy and navigate back to parent categories using breadcrumbs.	No breadcrumb navigation was visible on the product details page. Only the main navigation menu with links to the main website sections was displayed.	UX observation — not a confirmed bug.	
ETN_008	Country Selection / Regional Store Availability	https://www.sinsay.com/ua/uk/?query=%D0%BA%D1%83%D1%80%D1%82%D0%BA%D0%B0-%D0%B6%D1%96%D0%BD%D0%BE%D1%87%D0%B0	After selecting Spain as the delivery country, the website interface and delivery information changed to Spanish. After clicking the "IR A LA TIENDA" button, the Spanish Sinsay website opened and displayed a notification stating that the online store was suspended. The notification also indicated that returns and complaints were still available.	Users should be able to access the online store corresponding to the selected delivery country and browse available products and services.	The country selection was updated successfully, and the website redirected the user to the Spanish Sinsay version. However, the Spanish online store displayed a notification that online shopping was suspended. Returns and complaints remained available.	UX observation — not a confirmed bug	
ETN_009	Country Selection / Language Settings	https://www.sinsay.com/ua/uk/?query=%D0%BA%D1%83%D1%80%D1%82%D0%BA%D0%B0-%D0%B6%D1%96%D0%BD%D0%BE%D1%87%D0%B0	The website language is linked to the selected delivery country. When Ukraine is selected, the interface is displayed in Ukrainian. When Spain is selected, the interface changes to Spanish. The Global store offers English as its interface language.	Users should be able to understand the relationship between delivery country and available interface languages. Language selection options should be clearly presented.	The website automatically provides the language associated with the selected country. The Global store offers English. No independent language selection option was observed.	UX observation — not a confirmed bug
